

Premier Ag September Newsletter

WE'VE MOVED!!!!!!

Premier Ag LLC has moved to our new location in the new shop building just northeast of our old office building. Signage has not yet been added but stop in and check out the new office where we are able to offer a new variety of products inside the sales floor including vaccine, injectable antibiotics, pneu-darts, gate closers, silage inoculant, pet supplies, and so much more!

As September rolls in, it brings us closer to fall and backgrounding season. Premier Ag wants to remind our customers that we are prepared to be there for you this season with an ample supply of Rangeland Protein tubs including 30% protein, 25% protein all natural, and 25% High Fat AN as well as our signature Accuration 25% tubs with high fat nugget. Don't forget we do still have Rangeland 14% Rumensin Creep Available!! Take advantage of low cost of gain creep feeding calves this season!

UPDATE: We would like to update our valued clients of a new change of policy. Starting immediately Premier Ag LLC is providing feed/forage testing services through Dairyland Labs to customers at 50% cost for testing fees of regular NIR nutrient testing for up to 5 samples. Customers requesting samples tested will be responsible for the other 50% cost of testing fees. Please feel free to contact Premier Ag for more information.

For more information on any of our other feed products, contact us at-
